PROFESSIONAL SUMMARY

Flutter Developer with **3+ years** of experience architecting and shipping production-grade cross-platform mobile applications. Deep expertise in **Clean Architecture**, **BLoC/Cubit state management**, **REST & GraphQL API integration**, and **60fps UI performance optimization**. Proven track record of owning features end-to-end — from Figma to production — with CI/CD pipelines, automated testing, and App Store / Play Store releases. Comfortable mentoring junior developers and driving architecture decisions in fast-moving teams.

EXPERIENCE

Flutter Developer

Sep 2023 – Present

Esparkbiz · Ahmedabad

- Architected and shipped multiple production Flutter apps using **Clean Architecture** and feature-first module structure, cutting dev time by 20% and sustaining a 95% on-time release rate.
- Drove **BLoC/Cubit state management** adoption across the team, improving testability and reducing state-related bugs in code reviews.
- Translated Figma mockups into pixel-perfect, **responsive UIs** with custom animations, achieving 60fps smoothness across low-end Android and iOS devices.
- Integrated **REST APIs**, **Supabase**, and **Firestore** (Auth, Firestore, FCM) with proper repository-layer abstraction for maintainability and offline resilience.
- Set up **GitHub Actions CI/CD pipelines** for automated linting, widget testing, and staged production releases — improving release confidence and team velocity.
- Participated in architecture reviews and mentored 2 junior developers on Flutter best practices, widget testing patterns, and clean code principles.

Software Developer Intern

Jan 2023 – Sep 2023

Esparkbiz · Ahmedabad

- Developed and refactored features across production Flutter apps using **Agile/Git workflows**, improving codebase maintainability by 30%.
- Optimised UI rendering and async operations, contributing to a **25% lift in user engagement** within three months.
- Wrote widget and unit tests as part of the team's quality-first culture.

PROJECTS

Dyshez — Cross-Platform Food Delivery App

- Built a full-stack Flutter app with **Supabase** (auth, real-time orders, Postgres DB) delivering a smooth, high-performance UX across Android and iOS.
- Engineered a **Rewards & Loyalty System** — points, discount redemption, personalised offers — driving measurable repeat-purchase and retention uplift.
- Provided a dynamic admin interface for restaurant operators: menu management, pricing updates, and live order tracking.

Smackdab — Sales Productivity Tool

- Delivered a Flutter-based sales tool that improved team efficiency by 40% and increased overall sales by 25%.
- Built a **custom calendar module** and a library of reusable UI components, boosting scheduling efficiency by 20% and engagement by 30%.
- Engineered a **responsive, modular layout** optimised for both mobile and tablet form factors — a direct JD requirement.

Goals — CRM for Goal Tracking & Incentive Management

- Built a CRM Flutter app driving a 30% increase in sales performance through real-time goal tracking and incentive workflows.

- Optimised **network and async operations** (Dio, Isolates) — reduced processing time by 25% and improved app responsiveness noticeably.
- Integrated **Firebase Cloud Messaging (FCM)** and image-loading optimisations, increasing engagement by 15% and performance by 20%.

SKILLS

Core	Flutter, Dart, Clean Architecture, Modular Architecture
State Mgmt	BLoC / Cubit, GetX, Provider, Riverpod
APIs & DB	REST API, GraphQL, Firebase, Supabase, SQLite, Hive
Testing	Widget Testing, Unit Testing, Integration Testing
DevOps	CI/CD, GitHub Actions, Bitrise, Git
UI/UX	Material Design, Cupertino Widgets, Figma to Flutter
Performance	Flutter DevTools, Flutter Inspector, Memory Profiling, 60fps Optimisation
Familiar	React Native, Firebase Auth, Firestore, Cloud Functions

EDUCATION

Bachelor of Engineering Shantilal Shah Engineering College, Bhavnagar	2023 CGPA 8.89
